Summary

College student with proficiency in C++, C, and Python programming languages as well as web development. Experienced in fast-paced customer service environments, with excellent problem-solving, communication, and teamwork skills. Seeking opportunities to contribute my skills and gain experience while pursuing a Bachelor's in Computer Science.

Education

Oregon State University, Corvallis, OR (currently enrolled) Expected: 06/2027

Bachelor of Science in Computer Science – Computer Systems

Relevant Coursework: Web Development, Programming Language Fundamentals, Software Engineering 1, Vector Calculus 1

Accomplishments: Honor Roll, 3.9 GPA

Chemeketa Community College, Salem, OR

06/2025

Associate of Science in Computer Science

Relevant Coursework: Computer Science 1 and 2, Data Structures, Programming Architecture, Integral and Differential Calculus, Discrete Mathematics

Projects

Professional Website – HTML, CSS, JavaScript

Designed and developed a professional website with HTML, CSS, and client-side JavaScript that displays multiple pages, images, buttons, links, and modals. Created this project independently, in order to strengthen web development and creative-thinking skills.

Aim Trainer Website – HTML, CSS, Javascript

Collaborated with three OSU classmates to develop a browser game that implemented usernames, correlating user scores, scoreboards, settings, and unique difficulty modes. Interfaced via GitHub to contribute to a shared codebase.

Store Point-Of-Sale System – C++

Implemented C++ to create a Point-Of-Sale system. The program reads, parses, stores, and merge sorts data from a text file. This data is then searched to find matches to user inputs, and prints the appropriate matching product. The program also tracks the total of products and resets upon completion of cash payment.

Skills

- **Programming Languages:** C++, C, Python, HTML, CSS, JavaScript
- **Operating Systems:** Windows, Linux
- **Technology:** Git
